The strategy recognises that housing allocations in the Melton Local Plan are more than sufficient to meet the housing requirements of Somerby Parish for the plan period. It also recognises that the requirement might increase and makes contingencies for that by a reserve site in Pickwell and allowing for unallocated developments where of appropriate scale, location and type.

Please provide your suggestions below:

No change to Chapter 4.0.

Please provide your comments here:

The principle of Limits to Development is sound, allowing development in the future but seeking to direct it where it will minimise harm to the built and natural environment, settlement character and amenity of existing residents. The exact placement of the Limits to Development is also balanced and sensible; taking the former 'village envelopes' but enlarging them to recognise building which has taken place since, and including areas in Somerby village which are to some extent pre-developed or 'brownfield' and could potentially accommodate small-scale development. Subject to appropriate housing mix and design this is the kind of development which residents would be likely to support, so the Neighbourhood Plan is both realistic and representative of local preferences.

Please provide your suggestions below:

No change to Policy HR2 or the accompanying Limits to Development maps.

I am referring to the requests by Burrough Court Estate and Ernest Cook Trust for the Neighbourhood Plan to allocate additional sites for housing development on their land. Given that the Local Plan exceeds the housing requirements of the Parish and the rationale of Neighbourhood Plan chapters 4.0 and 5.0 there is no need for any such further allocations. Any proposals at those locations would be 'windfall' and determined according to policies HR2 and HR4 which exist to address such proposals.

Please provide your suggestions below:

The Neighbourhood Plan is correct to decline the additional site allocations requested by Burrough Court Estate and Ernest Cook Trust.
