Pegasus Group act on behalf of Davidsons Developments Limited who have land interests at Sandpit Lane, Long Clawson. The site is identified in Policy C1 (A) Housing Allocations as LONG4, capable of delivering 55 dwellings. It is also identified under Policy LONG4 Land off Sandpit Lane in Appendix 1 'Site Allocations and Policies' of the Pre-Submission Draft Melton Local Plan. The site is subject of planning application 16/00032/OUT, which is yet to be determined.

Policy SS2- Development Strategy sets out the Council's approach to the distribution of development across the Borough. As not all of the settlements have sufficient allocations with the capacity to meet their residual requirement, the 162 dwelling shortfall has been redistributed amongst the remaining Service Centres and Rural Hubs on a proportionate basis. For Long Clawson this has resulted in an increase in the housing requirement from 110 dwellings to 127 dwellings. This approach to distribution of housing to Long Clawson is supported. The site can deliver up to 55 dwellings, which together with other proposed allocations provides a total of 141 new dwellings. Whilst this is an overprovision when considered against the residual requirement of 127, it is not a significant increase in numbers and the combined proposals do not present any technical issues that cannot be overcome.

Policy C1 (Sound) - Pegasus Group act on behalf of Davidsons Developments Limited who have land interests off Sandpit Lane, Long Clawson. The site is identified in Policy C1 (A) Housing Allocations as LONG4, capable of delivering 55 dwellings.

The site's allocation for residential development of 55 homes in the Pre-Submission Local Plan is fully supported. The site is subject to an undetermined outline planning application submitted by Davidsons Developments Limited (reference 16/00032/OUT) for up to 55 new homes, together with open space, landscaping and drainage infrastructure.

The application proposals have been designed to reflect the character of the local area and site specific influences. The relationship of the site to existing properties to the north and east, and the presence of heritage features to the north of the site has informed the masterplan proposals. The key development principles involve development fronting on to Sandpit Lane with a new area of open space along the site's northern boundary to ensure that the development is sympathetic to adjoining properties, the Conservation Area and the Grade II\* listed Manor Farmhouse.

Davidsons Developments Limited are committed to providing a development of the highest quality that will provide the new housing the village needs in a sympathetic way. Davidsons has established a strong track record in delivering carefully designed quality new developments in similar sized settlements across Leicestershire and the Midlands (Design and Access Statement enclosed).

LONG4 - (Unsound - Possitively Prepared, Justified, efective) - Pegasus Group act on behalf of Davidsons Developments Limited who have land interests at Sandpit

Lane, Long Clawson. It is identified under Policy LONG4 Land off Sandpit Lane at Appendix 1 'Site Allocations and Policies' of the Pre-Submission Draft Melton Local Plan.

The site's allocation for residential development of 55 homes in the Pre-Submission Local Plan is fully supported. The site is subject to a live planning application (reference 16/00032/OUT).

The application proposes up to 55 new homes, together with access, landscaping and open space. The masterplan has evolved through a landscape led approach that ensures that the development will not result in an unacceptable impact on the wider landscape. The relationship of the site with nearby heritage assets has been carefully considered, with the proposed area of open space on the northern part of the site ensuring that any impacts on the Conservation Area and listed Manor Farmhouse would be limited.

Draft Policy LONG4 states that development of the site will be supported provided that it meets several criteria, one of which is:- Local educational capacity is available, or can be created through developer contributions, to meet the needs of the site

The draft Policy, together with the supporting text, implies that there is a limit on any new development being consented in Long Clawson if improvements are not made to Long Clawson Primary School to create additional pupil spaces.

Whilst Davidsons are working with the Borough Council and the Education Authority to ensure that their proposals will make appropriate contributions to create additional capacity in the primary sector, it is the statutory duty of the Education Authority to make additional provision to accommodate growth.

The Education Authority and the Borough Council should work together to identify a site in Long Clawson for a new primary school and this should be included within the Local Plan.

The Plan should be clear that contributions towards improvements at Long Clawson Primary School, together with funding for places at other local schools and transport are appropriate mechanisms to deliver new primary places. We would suggest that the supporting text to the Site Allocations Policies for Long Clawson is amended to provide further clarity, from:

"Sites in Long Clawson should only be brought forward for development when the primary school

places can be provided to meet the needs of new residents.”

to:

“Developer contributions will be secured from new developments to provide for improvements where appropriate to Long Clawson Primary school, or towards a new primary school, or towards the creation of capacity for new pupils at other local primary schools.”

In the Council’s 5 Year Land Supply and Housing Trajectory Report (November 2016), no development is assumed within the first 5 years of the Local Plan period for Long Clawson due to lack of capacity in Long Clawson Primary School. The trajectory should be amended to show the proposed allocations for Long Clawson starting to come forward within the 5-year period. The current capacity issues in the primary education sector should not limit development coming forward in the short term.

Policy LONG4 also states that development of the site will be supported provided:

-heritage assessment is provided with impacts assessed and suitable mitigation measures identified. This should pay particular attention to the effect of the development proposal on the Conservation Area, the setting of adjacent listed buildings and potential archaeological interests.

The submitted planning application is accompanied by a Heritage Assessment which demonstrates that the heritage impacts of the proposed development would not have an unacceptable impact on the Conservation Area and listed building. Historic England’s consultation response to the application confirmed that as per paragraph 132 of the NPPF, the harm to the significance of designated heritage assets would be less than substantial. It is for the Borough Council to determine whether the public benefits associated with the proposals outweigh the harm. The Council’s decision to allocate the site for housing in the Pre-Submission Local Plan clearly shows that they have undertaken this weighting exercise and that they consider that the benefits of providing additional housing in Long Clawson outweigh any harm to the Conservation Area and listed building.

Policy LONG4 includes a requirement for the site layout to include an area of open space to provide a buffer from the adjacent listed building to the north, to protect its setting. Given that the Policy already includes this provision to protect the setting of the listed Manorhouse and Historic England have confirmed that the harm caused by the proposals would be less than substantial, the requirement for proposals for the site to be accompanied by a heritage assessment is unnecessary.

The planning application proposals conform fully with all of the requirements of draft allocation LONG4. There are no technical or environmental issues that would preclude development of the site for housing.

Pegasus Group has engaged with the Parish Council and local residents in formulating the development proposals for the site, through the distribution of leaflets, a website and a public consultation event which took place in July 2015. The proposals have, where possible, taken into account residents’ comments to develop a layout that is sympathetic to the site’s location and setting. Finally, we would suggest that the Site Allocations and Policies should be included within the main body of the Local Plan, and not as an Appendix. This would serve to make the Plan more coherent.
