Para 4.2.18 - Typo on 4th line "exiting"

Designation of Frisby on the Wreake as a Rural Hub is unsound, as this settlement now has fast broadband provision (all classification criteria for a Service Centre are therefore met: primary school, access to employment opportunities, fast broadband and at least one community building).

4 CH4Q4: Please set out what change(s) you consider necessary to make Chapter 4 legally compliant or sound, having regard to the test you have identified at 2 above where this relates to soundness. lease set out what change(s) you consider necessary to make the Melton Local Plan legally compliant or sound:

Frisby on the Wreake should therefore be classified as a Service Centre, and housing allocations across Service Centres should be proportionately higher, particularly in Frisby on the Wreake, a sustainable settlement with significant potential in supporting substantially more development. Housing allocations seem to be based around settlement population and how much the population would increase, though allocations should be purely based around the sustainability of a settlement.

Frisby was previously categorised as a Secondary Service Centre in the Settlement Roles and Relationships Report (April 2015) due to the sustainable services and facilities it provides, which should be kept. No services or facilities have been lost since then, and indeed this has been enhanced with fast broadband provision. In support, Frisby on the Wreake offers the essential services and facilities listed, in addition to a frequent public transport service, a convenience store, public house, a tea shop, newsagents, sports and leisure facilities, cemetery, place of worship and boarding kennels.

Chapter 5 has not been positively prepared fully in favour of sustainable development regarding Site MBC/004/16 - Water Lane, Frisby on the Wreake (proposed allocation FRIS2).

This chapter fails to maximise housing delivery on sites of an appropriate scale in service centres, in particular in Frisby on the Wreake (which should now be categorised as a Service Centre given its updated provision of fast broadband in October 2016). This site is deliverable and can help to immediately address the lack of a 5-year housing land supply in the Borough. The Five-year housing land supply position was stated at 2.2 years supply in the August 2016 Authority Monitoring Report and a lack of five-year housing land supply was stated in the Melton Planning Committee dated 10th November 2016. Melton Borough's track record of failing to meet their five-year housing land supply targets further exacerbates their position.

A significant proportion of the housing allocations are aimed at two Sustainable Urban Extensions on the edge of Melton Mowbray. Given that much of this development is projected for delivery in 2018, these allocations are overly optimistic, as no planning applications have yet been submitted for these SUE developments.

Only part of this site is located in *Defended Flood Zone 2, and SUDS are proposed in this area of the site. The proposed housing is not located in this defended flood zone, and the indicative site layout integrates the proposal sustainably into the character of Frisby on the Wreake.

The number of dwellings proposed on this site has been reduced in accordance with the public consultation responses, from 45 dwellings to 30 dwellings. A public car park and public open space (including play area facilities) will also be provided, along with the Sustainable Urban Drainage System that will further reduce the potential for flooding on this site and the surrounding area.

4 CH5Q4: Please set out what change(s) you consider necessary to make Chapter 5 legally compliant or sound, having regard to the test you have identified at 2 above where this relates to soundness. (NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this change will make Chapter 5 legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

In accordance with the Plan, it should be seen that the MBC/004/16 - Water Lane, Frisby on the Wreake site offers a sustainable proposal that understands and suitably mitigates the related issues raised.

Please insert text here. :

It is considered that site MBC/004/16 - Water Lane, Frisby on the Wreake is capable of delivering sustainable development in excess of the 14 dwellings identified in Policy C1 (A), in a manner that understands and suitably mitigates the site-specific issues raised.

The allocation of additional development in Frisby on the Wreake is generally welcomed. However there is scope for greater housing allocations in Frisby on the Wreake where sustainable sites are identified. This is due particularly to the highlighted facilities and services Frisby has to offer, which greater housing allocations would support.

Furthermore, to only allocate 14 dwellings to site MBC/004/16 is not considered to be the most appropriate strategy. The restriction of numbers on the site fails to acknowledge the suitability of Frisby on the Wreake for accommodating a larger scale of development consistent with it meeting the criteria for qualification as a Service Centre. Most importantly the proposed limited numbers on site MBC/004/16 allocation is not supported by available evidence, which demonstrates that the site can adequately accommodate 30 dwellings. The policy therefore misses an opportunity to deliver housing early in the plan period that would make a positive contribution towards resolving Melton Borough's lack of five-year housing land supply.

A planning application (reference 16/00740/OUT) has already been submitted for this site and is supported by a number of technical and planning reports, which demonstrate that the site can sustainably accommodate 30 dwellings without causing demonstrable harm.

Appendix 1 of the Submission Local Plan draws attention to issues of flood risk on the site. A Flood Risk Assessment has been carried out, which demonstrates that flood issues are not a significant constraint to development. The area of the site affected by flood risk is part of 'defended' flood zone 2 and the planning application proposal adequately takes account of this through drainage and design measures. This ensures that all the housing can be constructed within those areas of the site not at risk of flooding.

A proposal of 30 dwellings on the site is demonstrated in the planning application (16/00740/OUT) to be in accordance with the policies of the National Planning Policy Framework with no adverse impact on matters of highway safety, ecology, arboriculture or landscape. The Local Plan Appendix 1 – Site Allocations and Policies (October 2016) identifies that noise impacts on site can be adequately mitigated, and flood mitigation measures have been put in place, with drainage infrastructure available to accommodate surface water. An increased scale of development at Water Lane, Frisby would therefore satisfy the requirements to deliver sustainable development.

4 CH5PC1(A)Q4: Please set out what change(s) you consider necessary to make the Melton Local Plan legally compliant or sound, having regard to the test you have identified at 2 above where this relates to soundness. (NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this change will make the Melton Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

lease set out what change(s) you consider necessary to make the Melton Local Plan legally compliant or sound:

30 dwellings would be a suitable and viable number of dwellings on this site at an appropriate scale (MBC/004/16 - Water Lane, Frisby on the Wreake), given the shortfall in Melton Borough's five-year housing land supply and their dependence on SUE delivery, which is optimistically projected.

The proposed number of dwellings on this site has been reduced in accordance with the public consultation responses, from 45 dwellings to 30 dwellings. A public car park and public open space (including play area facilities) will also be provided, along with the Sustainable Urban Drainage System to eliminate the flooding risk on this site and in the surrounding area.

Suggested Change:

The Table in policy C1 (A) should be revised and the number of homes allocated to site MBC/004/16 increased to 30.

*Typo: "D) Tt is safe from residual risk"

Supported. However, 'Defended' Flood Zone 2 should be a consideration, as this land designation states that there is even less risk of flooding than Flood Zone 2. Is there the possibility that "Defended Flood Zone 3A" referred to is a typo?

Appropriate mitigation measures (as shown in the proposals for site MBC/004/16, Water Lane, Frisby on the Wreake), in addition to meeting the terms of this proposed policy, would deem site proposals sustainable and viable in regard to flood risk in Defended Flood Zone 2 areas.

Regarding site MBC/004/16, the supporting Flood Risk Assessment states "the vulnerability of the development to flooding from all sources pose a low risk to the

development subject to the recommended mitigation measures being implemented. The proposed surface water strategy will not increase flood risk at the site or elsewhere and provide betterment in terms of runoff rates during high intensity storms". The proposals are also deemed sufficient by the Lead Local Flood Authority in regards to flood risk, which the Environment Agency refer to as the lead statutory consultee for surface water management on this site.

A greater flexibility and positive perception of sites located in 'Defended Flood Zone 2' should be provided, where it is demonstrated that proposed dwellings are suitably located in the lowest risk areas on site, and a SUDS and improved green infrastructure mitigate any remaining risk of flooding. Site MBC/004/16 should be viewed acceptable in terms of flood risk given these comments and the supporting application documents (16/00740/OUT).

The housing allocation for site FRIS2 (MBC/004/16) shows a restricted allocation of 14 dwellings.

A reduction in dwelling numbers on this site has already been made in a sustainable approach to the recognised and understood issues regarding the area. This has seen the proposal for 45 dwellings decreased to 30 proposed dwellings, incorporating a Sustainable Urban Drainage System in the lowest area of topography on site to alleviate any flood risk in the Defended Flood Zone 2. The 30 dwellings are located in a way that fits the form of the village boundary and do not encroach into the Defended Flood Zone, or significantly into the countryside. Landscape values are therefore protected given the location of the site is not on a hilltop, in comparison to other application sites in the village, and is buffered by the retention and enhancement of the site's boundary trees and hedgerows.

As the current planning application demonstrates (16/00740/OUT), the 30 proposed dwellings are appropriate and suitable for this site. This number of dwellings does not cause any detrimental material planning considerations compared with the 14 allocated dwellings. As the intention is to significantly boost housing supply, the possibility of an extra 16 dwellings should be embraced.
