Please provide comments below, being as precise as possible. Comments can support, as well as object.

We object to the wording for Policy EN11 on Flood Risk, Foul Water and Sustainable Drainage Systems. In particular objection is made to the wording in the policy which states:

“Proposals will need to demonstrate that there is capacity within the foul water sewage network **or that capacity can be made available prior to the occupation of the development**”.

If you are objecting, please set out what further changes you consider necessary to make the plan sound.

This clause to the policy should be deleted as any developer has the right in law to connect to the foul sewage network and it is up to the provider (in this case Severn Trent) to ensure there is sufficient capacity.

Therefore the occupation of the development cannot be restricted by capacity as the provider must ensure there is capacity in the network.
