We fully support the recognition that the development requirements outlined in Policy SS2: Development Strategy are a minimum, and the flexibility that this part of the policy enables. Furthermore, we support the identification of Asfordby Hill as a Rural Hub, which alongside Service Centres, are to take 35% of the total residential requirement across the Borough. As we have stated above, we consider Asfordby Hill to be a sustainable settlement with good access to local services and facilities and therefore we agree that it is suitable for a proportion of residential development.

However, we are concerned that not all of the relevant issues have been taken into account when determining the amount of residential development that is required. Paragraph 158 of the NPPF states that 'each local planning authority should ensure that the Local Plan is based on adequate, up-to-date and relevant evidence about the economic, social and environmental prospects of the area'. The Councils of Leicester and Leicestershire are currently working on producing their Housing and Employment Development Needs Assessment [HEDNA] report and this is anticipated to be published in January 2017. The updated Objectively Assessed Housing Needs [OAHN] contained within this document are

likely to have a significant impact on the residential requirements for the borough, and as such the current anticipated housing requirements are likely to require revising prior to the Local Plan's Submission in order for it to pass the tests of soundness.

Please insert text here. :

With regards to Policy SS3: Sustainable Communities we are encouraged by the Council's support for development on unallocated sites during the Plan period. However, we do consider it unsuitable to enforce definitive limits on the amount of residential development that can take place on an unallocated site. Adopting such an approach would not allow for flexibility within the Plan if there are any delays in the delivery of the strategic development areas and other large allocated sites. Furthermore, for those settlements that are not classified as Service Centres, such as Asfordby Hill, the proposed policy does not encourage the provision of affordable housing. In particular, the policy would appear to be contrary to Paragraph 54 of The Framework which states 'local planning authorities should be responsive to local circumstances and plan housing development to reflect local needs, particularly for affordable housing'. Therefore, the proposed limits on the amount of development allowed to take place on an unallocated site would not appear to be compatible with the objectives of the NPPF, including the presumption in favour of sustainable development endorsed by the Melton Local Plan Pre-Submission Draft.

ASFH1; ASFH2

The proposed development site has a total area of approximately 0.65 ha (1.61 acres) comprising amenity grassland and dense woodland in the centre of Asfordby Hill, as shown outlined in red in Appendix 1.

The site is bordered to the north by Melton Road, to the west by Crompton Road including residential properties, to the east by the Sports Ground and to the south by Stanton Road with residential properties.

We propose that the site (Appendix 1) is included as a residential allocation as part of Policy C1 (A): Housing Allocations. On behalf of the landowner we have undergone extensive consultation with the Asfordby Neighbourhood Plan Group and have arrived at a position whereby the Neighbourhood Plan Group has proposed the site as an allocation. However, the site is not identified by Melton Borough Council as a residential allocation. Therefore, there is likely to be a conflict between the Neighbourhood Plan and the Local Plan.

We have made Melton Borough Council aware of the site's availability for development through various submissions, including the 'Call for Sites' as part of the Strategic Housing Land Availability Assessment.

The site is the subject of planning application reference PP-05663466 for outline permission for 14 dwellings and public open space.

A pre-application request was submitted to Melton Borough Council and subsequently a meeting was held with Pat Reid, Regulatory Services Manager. It was acknowledged that Melton Borough Council was unable to demonstrate a 5 year supply of deliverable housing land at the time and that in principle there was no objection to the scheme.

Asfordby Parish Council have recently submitted their Neighbourhood Development Plan for consideration by Melton Borough Council. The agent engaged with the Parish Council throughout the Plan process and discussed the proposals for the site.

The subject site is allocated for residential development by Policy A15 in the Submission version of the Asfordby Neighbourhood Plan. This policy allocates the site for residential development for around 20 dwellings including the retention and improvement of the existing children's play area.

The village is located in close proximity [approximately 1.8 miles] to a wide range of services and employment opportunities in Melton Mowbray. In addition, Asfordby Hill has good links to the A46 and the A606, providing access to Leicester, Nottingham and further afield. As a result, the village is a desirable location where people want to live.

Asfordby Hill has been identified as a sustainable village, which offers a number of good services including a Primary School, Sports Ground, Business Park and Sports and Social Club. Therefore, we are of the opinion that Asfordby Hill can support an additional 14 dwellings, and in turn the proposed development would also assist in supporting the existing services.

We consider that the site has the capacity to accommodate up to 14 dwellings, including affordable housing, public open space and any associated infrastructure. The proposed development scheme would provide a range of property types and sizes, including terraced, semi-detached and detached dwellings ranging from two to four bedrooms in size. The proposed development would also provide an enhanced Children's Play Area.

The proposed scheme has been designed with careful consideration for protecting the residential amenity of neighbouring residents. The scheme has been designed to retain a significant proportion of the existing hedgerow and trees around the site boundary and the provision of green space within the development.

Therefore, we consider the site to be in a sustainable location, close to a number of services and facilities and accessible via public transport. It provides a good opportunity to make a valuable contribution towards meeting the Borough's development needs.

Additionally, the failure to allocate the site as a potential residential development site would appear to be contrary to the objectives of the NPPF. Paragraph 17 of The Framework outlines the Core Planning Principles that should underpin both plan-making and decision-taking.

It states

'Planning should be genuinely plan-led, empowering local people to shape their surroundings, with succinct local and neighbourhood plans setting out a positive vision for the future of the area'.

Furthermore, Paragraph 155 of the Framework states

'Early and meaningful engagement and collaboration with neighbourhoods, local organisations and businesses is essential. A wide section of the community should be proactively engaged, so that Local Plans, as far as possible, reflect a collective vision and set of agreed priorities for the sustainable development of the area, including those contained in any neighbourhood plans that have been made'

As stated above, the proposed development site has been allocated for residential development in the submission version of the Asfordby Neighbourhood Plan. As such, failure to allocate this site as part of Policy C1 (A) would appear to be contrary to the principles and objectives, for a plan-led system that empowers local people, outlined in the NPPF.

In respect of Policy C2: Housing Mix, we support its requirement for new development to deliver a range of housing types and sizes. We consider it necessary for there to be a range of housing opportunities, and providing a range of housing locations is intrinsic to this. Consequently, we believe that this needs to be reflected consistently within the draft Plan, including within Policy SS3: Sustainable Communities. With regards to the proposed development scheme, significant attention has been given to providing a range of housing opportunities. The scheme has been designed to include terraced, semi-detached and detached dwellings ranging in size from two to four bedrooms.

With regards to Policy EN11: Minimising the risk of flooding, we fully support the objectives of the policy in line with Paragraphs 14 and 100 of the NPPF. Given that the presumption in favour of sustainable development is the golden thread running through national and local planning policy, it is logical that this translates into development being located in areas that are not at high risk of flooding, and that schemes do not increase the risk of flooding elsewhere. With reference to the Environment Agency Flood Map for Planning, the subject site is not an area at significant risk of flooding.

Finally, we fully support the objectives of Policy D1: Raising the standard of design, good planning and good design are inseparable and we are pleased that this has been identified by this policy. The proposed development scheme for the subject site has been designed with consideration for all of the criteria contained in the policy; a significant number of trees are to be retained and areas of open space provided to ensure that the development is in keeping with the character of its surroundings and prevents the residential amenity of neighbouring properties from being adversely impacted. Furthermore, sufficient space

would be provided on-site to allow for off-street car parking for all proposed dwellings.
