HAR3 would not be effective as this will compromise the feel of the village and give the impression of a densely populated housing estate which is not in keeping to the existing environment or surroundings. The land is green pasture land and previously purchased by the Parish for allotments, the land should not be used when there are other sites more suitable (e.g. Millway which is a brown site, derelict and an eyesore). The access to the site HAR3 is next to a nature reserve, if 40 properties are built this will generate 60-80 cars and at peak times there would be a bottleneck to exit the site which would be detrimental to the environment. If traffic were to be diverted through Pinfold Place, this would cause a traffic hazard, congestion and pollution. (cars travel along Pinfold Place on one side of the road as residents do not have driveways to park vehicles), additional traffic of 40-60 cars trying to access Stathern Lane at peak times would be a traffic and pollution hazard.

4 CH5PC1(A)Q4: Please set out what change(s) you consider necessary to make the Melton Local Plan legally compliant or sound, having regard to the test you have identified at 2 above where this relates to soundness. (NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this change will make the Melton Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

lease set out what change(s) you consider necessary to make the Melton Local Plan legally compliant or sound:

The plan should reflect the existing structure of the Village and initially use the brown land site at Millway which is an eyesore, derelict for years and a blight to the Village and the environment. To make the plan sound it needs to refrain from creating a housing estate and endeavour to follow the natural line of the Village by providing small cul de sacs and streets in different locations utilising small pockets of land within the Village. One example is Stathern Lane which has many pockets of land along the main road buildings would mirror existing development and would not detract from the beauty of the area, cars would be travelling from different locations and would not cause congestion at peak times.
