We fully support the recognition that the development requirements outlined in Policy SS2: Development Strategy are a minimum, and the flexibility that this part of the policy enables. Furthermore, we support the identification of Long Clawson as a Service Centre, which are to support 35% of the total residential requirement across the Borough. As we have stated above, we consider Long Clawson to be a sustainable settlement with comparatively good access to local services and facilities and therefore we agree that it is suitable for a proportion of residential development.

However, we are concerned that not all of the relevant issues have been taken into account when determining the amount of residential development that is required. Paragraph 158 of the NPPF states that 'each local planning authority should ensure that the Local Plan is based on adequate, up-to-date and relevant evidence about the economic, social and environmental prospects of the area'. The Councils of the Leicester and Leicestershire Housing Market Area are currently working on producing their Housing and Employment Development Needs Assessment Report [HEDNA] and this is anticipated to be published in January 2017. The updated Objectively Assessed Housing Needs [OAHN] contained within

this document are likely to have a significant impact on the residential requirements for the borough, and as such the current anticipated housing requirements are likely to require revising prior to the Local Plan's submission in order for it to pass the tests of soundness.

**4 CH4PSS2Q4: Please set out what change(s) you consider necessary to make the Melton Local Plan legally compliant or sound, having regard to the test you have identified at 2 above where this relates to soundness. (NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this change will make the Melton Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.**

**lease set out what change(s) you consider necessary to make the Melton Local Plan legally compliant or sound:**

With the publication of the HEDNA report anticipated for January 2017, we would suggest that it may be beneficial to delay submission and adoption of the new Local Plan until the Council has had an adequate opportunity to review its housing requirements, to reflect the updated OAHN included within this report. Furthermore, we consider it necessary for the Local Plan to remove the proposed limits on the amount of development allowed on an unallocated site, as the current policy would restrict the likelihood of affordable housing being delivered in rural areas.

### **Policy SS3 – Sustainable Communities (unallocated sites)**

**1 CH4PSS3Q1: Do you consider that Policy SS3 is?**

**Do you consider that Policy SS1 - Legally Compliant::**

**Do you consider that Policy SS1 - Sound::**

**3 CH4PSS3Q3: Please give details of why you consider Policy SS3 is not legally compliant or is unsound or fails to comply with the Duty to Co-operate. Please be as precise as possible. If you wish to support the legal compliance or soundness of Policy SS3 or its compliance with the Duty to Co-operate, please use this box to set out your comments.**

**Please insert text here. :**

With regards to Policy SS3: Sustainable Communities we are encouraged by the Council's support for development on unallocated sites during the Plan period. However, we do not consider it suitable to enforce definitive limits on the amount of residential development that can take place on an unallocated site. Adopting such an approach would not allow for flexibility within the plan if there are any delays in the delivery of strategic development areas and other large allocated sites. Furthermore, for those settlements that are not classified as Service Centres, the proposed policy does not encourage the provision of affordable housing. In particular, the policy would appear to be contrary to Paragraph 54 of The Framework which states 'local planning authorities should be responsive to local circumstances and plan housing development to reflect local needs, particularly for affordable housing'. Therefore, the proposed limits on the amount of development allowed on an unallocated site would not appear to be compatible with the objectives of the NPPF, including the presumption in favour of sustainable development endorsed in the Melton Local Plan pre-submission document.

LONG1; LONG2; LONG3; LONG4

Land off Hickling Lane, Long Clawson

We propose that the site (Appendix 1) be allocated as a potential residential development site as part of Policy C1 (A): Housing Allocations. As stated above, we consider it likely that the current anticipated housing requirements are likely to require revising in response to the OAHN included in the HEDNA report due for publication in January 2017. If residential requirements increase, as anticipated, we would propose that the site allocated. The site is subject to an ongoing planning application for 31 dwellings, and we confirm the site to be available and deliverable.

We have made Melton Borough Council aware of the site's availability for development through various submissions, including the 'Call for Sites' as part of the Strategic Housing Land Availability Assessment.

The site is the subject of planning application reference 16/00810/OUT which is a resubmission of a previously withdrawn application for up to 31 dwellings [Reference: 15/00833/OUT].

A pre-application request was submitted to Melton Borough Council and subsequently a

meeting was held with Jennifer Wallis, Applications and Advice Manager, on Monday 18th May 2015. It was acknowledged that Melton Borough Council was unable to demonstrate a 5 year supply of deliverable housing land at the time and that in principle there was no objection to the scheme.

Following the pre-application meeting, the agents and developer met with Clawson, Hose and Harby Parish Council on Monday 15th June 2015 to outline the scope of the proposed development.

The proposed development site has a total area of approximately 1.142 ha (2.822 acres) of paddock land located on the western edge of Long Clawson, as shown outlined in red in Appendix 1.

The site is bordered in part by Broughton Lane to the north, Hickling Lane and residential properties to the east, and agricultural land to the south and west. There are a number of residential properties situated directly adjacent to the eastern boundary, and to the south off Coronation Road.

The village is located in close proximity [approximately 8 miles] to a wide range of services and employment opportunities in Melton Mowbray.

Long Clawson has been identified as a sustainable village, which offers a good number of services, including a Primary School, Village Hall, Public House, GP, Village Shop and Café/Deli. Therefore, we are of the opinion that Long Clawson can support an additional 31 dwellings and in turn the proposed development would also assist in supporting the existing services.

We consider that the site has the capacity to accommodate up to 31 dwellings, including affordable housing and any associated infrastructure. The proposed development scheme would provide a range of property types and sizes.

The scheme has given significant regard to protecting the residential amenity of neighbouring residents by retaining the existing hedgerows and mature trees around the site boundary and planting new trees on the proposed boundaries, attention has also been given to the distance from nearby properties.

Therefore, we consider the site to be in a sustainable location, close to a number of services and facilities and highly accessible. It provides a good opportunity to make a significant contribution towards meeting the Borough's development needs.

**Please insert text here. :**

Given the Borough's recent history of persistent under-delivery of housing sites, we would suggest that it would be beneficial for the Local Plan to identify more reserve housing sites in order to improve the robustness of the plan. Furthermore, allocating additional reserve sites would also allow for flexibility within the plan if there are any delays in delivering any allocated housing sites.

**Please insert text here. :**

In respect of Policy C2: Housing Mix, we fully support its requirement for new development to deliver a range of housing types and sizes. We consider it necessary for there to be a range of housing opportunities, and providing a range of housing locations is included within this. Consequently, we believe that this needs to be reflected consistently within the draft Plan, including within Policy SS3: Sustainable Communities. With regards to the proposed development scheme, there has been significant attention given to providing a range of dwelling types and sizes including starter homes and family homes.

We fully support the objectives of Policy EN11: Minimising the risk of flooding. Given that the presumption in favour of sustainable development is the golden thread running through national and local planning policy, it is logical that this translates into development being located in areas that are not at high risk of flooding, and also that schemes do not increase the risk of flooding elsewhere; this approach is identified in Paragraph 100 of the NPPF. With reference to the Environment Agency Flood Map for Planning, the subject site is not an area at significant risk of flooding.

Finally, we fully support the objectives of Policy D1: Raising the standard of design, good planning and good design are inseparable and we are pleased that this has been identified by this policy. The proposed development scheme for the subject site has been designed with consideration for all of the criteria contained in the policy; a significant proportion of trees are to be retained and a large amount of additional planting would also be provided to ensure that the residential amenity of neighbouring properties and the existing residents in Long Clawson is not adversely impacted. Furthermore, sufficient space has been left onsite to allow for off-street car parking adjacent to all proposed dwellings.
